## EDUCATION

**Ivey Business School, Western University**, London, ON, Canada Spring 2024  
*Candidate for Bachelor of Arts, Honours Business Administration (HBA)*

**Western University**, London, ON, Canada Spring 2024  
*Bachelor of Engineering Science, Software Engineering (BESc)*  
• 3.9/4.0 Cumulative GPA; Dean's Honor List (2019-2021)

## WORK EXPERIENCE

**Toronto-Dominion Bank**, Toronto, ON, Canada Summer 2022  
*Software Engineering Intern*

- Developed core APIs within an agile environment to uplift Account Transfer services with **Spring Boot** to service 26% of active business banking customers in MVP 1 rollout.
- Automated unit testing and endpoint testing with **JUnit** and **Postman** collections to meet 85% code coverage system requirements.

**Western University**, London, ON, Canada Summer 2021  
*Undergraduate Summer Research Intern*

- Led front-end development of a mobile surveying application with **React Native**, **JavaScript**, and **Expo APIs**, to replace a paper-based information collection system; increased response rate by up to 30%.
- Designed the initial product layout and interactive models with **Figma** and led a showcase to end-users for feedback, positioning the mobile application for a successful deployment.

## OTHER ACTIVITIES & INTERESTS

**Ivey Fintech Innovation Portfolio**, *Full Stack Developer* 2021 – 2022

- Utilized **React** and **Figma** to build components for an event organization and student management application for the London Boys and Girls Club.
- Collaborated with a team of nine developers through **GitHub** to connect the frontend with **Firebase** and develop a full stack application.

**Ivey Section Executive**, *Vice President Social* 2021 – 2022

- Organized weekly social events such as section dinners, golf events, and bar nights for my 80-person cohort by connecting with local businesses to arrange reservations and build relationships for my program.

**Western University Orientation Team**, *Engineering Leader* 2020 – 2021

- Mentored 23 first year engineering students throughout the year by endorsing university resources and providing social support, ensuring students were accustomed to university and positioned for success.

**The Basket Project**, *Oshawa Division Co-Led* Summer 2020

- Led an expansion division of a non-profit organization that created and distributed Covid-19 relief baskets to the homeless; resulted in 125 relief baskets being delivered to the Oshawa homeless community.
- Established a social media marketing campaign to raise capital; reduced estimated costs by 44% after contacting suppliers directly to bypass retail pricing and manufacturers for product donations.

**Technical Skills:** Java, JavaScript, React Native, React, Spring Boot, Postman, Git and GitHub

**Certifications:** Microsoft Certified: Azure Fundamentals

**Awards:** Western Engineering Debate Finalist, 2021; Western President Letter of Recognition, 2020; Home Depot Orange Scholar, 2019; Golf Ontario Ken McKenzie Award, 2019

**Interests:** Golfing, cooking, podcasts, snowboarding, innertube water polo
