EDUCATION

Ivey Business School, Western University, London, ON, Canada   2023
Candidate for Bachelor of Arts, Honours Business Administration (HBA)

Western University, London, ON, Canada   2021
Completed two years Bachelor of Engineering Science, Software Engineering (BESc)
- 3.9/4.0 Cumulative GPA; Dean's Honor List (2019-2021)

WORK EXPERIENCE

Western University, London, ON, Canada   Summer 2021
Undergraduate Summer Research Intern
- Led front-end development of a mobile surveying application with React Native, JavaScript and Expo APIs, to replace a paper-based information collection system; increased response rate by up to 30%.
- Designed the initial product layout and interactive models with Figma and led a showcase to end-users for feedback, positioning the mobile application for a successful deployment.

Geared to Golf, Whitby, ON, Canada   2016 – 2020
Golf Instructor
- Mentored junior golfers at high-performance clinics and camps; collaborated with a team of eight instructors to create a plan to teach junior golfers' fundamental skills, such as establishing a routine, swing techniques, and mental fortitude.

OTHER ACTIVITIES & INTERESTS

Ivey Fintech Innovation Portfolio, *Full Stack Developer*   2021 – Present
- Utilized React and Figma to build components for an event organization and student management application for the London Boys and Girls Club.
- Collaborated with a team of nine developers through GitHub to connect the frontend with Firebase and develop a full stack application.

Ivey Section Executive, *Vice President Social*   2021 – Present
- Organized weekly social events such as section dinners, golf, and bar nights for my 80-person cohort by connecting with local businesses to arrange reservations and build relationships for the program.

Western University Orientation Team, *Engineering Leader*   2020 – 2021
- Mentored 23 first year engineering students throughout the year by endorsing university resources and providing social support, ensuring students were accustomed to university and positioned for success.

Hex Cambridge, *Full Stack Developer*   January 2021
- Collaborated with a team to develop a web-based application to combat food waste in the UK, leveraging digital grocery receipts to construct a user's virtual fridge and recommend meal options.

The Basket Project, *Oshawa Division Co-Led*   Summer 2020
- Led an expansion division of a non-profit organization that created and distributed Covid-19 relief baskets to the homeless; resulted in 125 relief baskets being delivered to the Oshawa homeless community.
- Established a social media marketing campaign to raise capital; reduced estimated costs by 44% after contacting suppliers directly to bypass retail pricing and manufacturers for product donations.

Technical Skills: Java, JavaScript, React Native, Git and GitHub, Microsoft Office Suite (Word, Excel, and PowerPoint)
Relevant Coursework: Data Structures and Algorithms, Software Design, Decision Making with Analytics
Awards: Western Engineering Debate Finalist, 2021; Western President Letter of Recognition, 2020; Home Depot Orange Scholar, 2019; Golf Ontario Ken McKenzie Award, 2019
Interests: Golfing, cooking, podcasts, snowboarding, innertube water polo
